

Sampark Infoways

Leading IT Services & Corporate Identity Consultants

About Us

Sampark Infoways is a Complete IT Solutions & Corporate Identity Consultants providing services in different IT domains since last 4 years. We have served some of the finest businesses in Chhattisgarh, and have one of the most talented and creative development and design team with us.

The Internet offers new opportunities for marketing businesses. To take advantage of the vast possibilities of this new medium, it is imperative for companies to have an online presence. The growing competition among businesses to secure a dominant position on the Internet has triggered a race for superior Website Designing and Development services.

Today every business also requires competitive presentation of it's identity in every Media. Because anything having name of the organization on it represents & creates imagination about organization in the mind of clients.

In a situation like this, what client needs is the support of an organization that offers Design and Development with technical experience & commitment to exceed expectations. Sampark Infoways is a reputable name in web & Design solutions. We offer state-of-the art Website Designing, Development & Maintenance services that can help consolidate online & offline presence.

We are also interested in joining hands with other organizations for there supporting activities and processes they required.

Services

1) Web Site Designing and Development

The importance of corporate web site design is taken so gravely in the web world that some might think it to be overrated. However, when it comes representing your business adequately and creating an impressive web identity, the corporate website is of immense value. Precisely why, businesses seem obsessed with getting every nut and bolt right in their corporate website.

On the other hand we have our set process to serve our existing clients for their day to day needs for updating and creating something new.

Technologies we use for Web Site Designing and Development:

For Web Designing **HTML5**, **CSS3**, **SVG**, and **Ajax** are used and for Website Development we use **.Net** with **.Net Framework4.5** and **MVC** architecture. Also we develop websites using **PHP** with **codeigniter framework2.1.4** and **MVC** architecture.

2) Corporate Branding

We at Sampark know how critical a corporate logo or company logo is, which is why our professional and talented logo designers create customized corporate identity solutions, keeping in mind the exact of a client's business.

Tools we use for Logo Designing

Adobe illustrator CC, **Adobe Photoshop CC**, **Corel DrawX7**.

3) E-Commerce Website Design Solutions

Technologies for E-Commerce Website

We design E-commerce website using **HTML5**, **CSS3**, **XHTML**, **AJAX**, and **JavaScript** and develop using **PHP** by following **MVC architecture** with the help of web development tool **Adobe Dreamweaver CS6**, And we also use Some open source e-commerce Software Like **OpenCart 1.5.6.4** and **WordPress 4.0**.
